SOUTHEASTERN ENGINEERING SALES INC

PRECISION SHEET METAL FABRICATION, DESIGN AND ENGINEERING

ENGINEERING & DESIGN

*S.E.S. offers sheet metal **engineering support services** from the pre-prototype stage through production. Based on our knowledge of the materials involved and manufacturing technology, our sales engineers can assist with optimizing costs and manufacturability. Our in-house engineers enjoy a challenge and are eager to add value to your next project.*

*S.E.S. has the equipment, the technology and the dedicated staff to handle all of your precision sheet metal fabrication or machining needs. Our advanced capabilities include **sheet metal forming, tube bending, welding, CNC turret punch press** and various secondary operations. **Welding, deburring** and other **finishing services** are part of our one-stop manufacturing solution.*
